

Virtual Alzheimer's Disease and Dementia Care Seminar

October 20, 2022
8:15 AM - 5:00 PM ET

This interactive virtual seminar provides an overview of dementia and encourages participants to view individuals living with dementia as unique persons rather than a diagnosis. It offers non-pharmacological strategies for successfully addressing dementia behaviors such as hoarding, repetitive behaviors, paranoia and hallucinations, sundowning, aggression, and wandering. In addition, it covers effective communication techniques, sex and intimacy, activities, caregiver stress, staff and family relationships, end-of-life issues, pain management, depression, personal care, and more.

This class meets one of the requirements for becoming a Certified Dementia Practitioner through the National Council of Certified Dementia Practitioners. To learn more about certification and your eligibility, go to www.nccdp.org.

\$75 for SGS Members \$100 for Non-Members
Valued at \$195

Denise Scruggs, CDP, CADDCT, ADC, Director, Beard Center on Aging is a certified dementia practitioner and a Certified Alzheimer's Disease and Dementia Care Seminar trainer. She has been a dementia educator and consultant for over 14 years.
